

EDES 401/501 ART MEDIA FOR EDUCATORS

July 4 – 14, 2017 (Monday to Friday, 9:00AM to 2:30 PM)

Instructor: Dr. Harold Pearse, Award winning art educator

This course is a 2-week intensive studio course focusing on engagement in artistic practices and inquiry into the processes of creativity. In other words, it is a chance for educators (pre-service or in the field) to explore a variety of art media (i.e. drawing, painting, collage, mixed media, sculpture, ceramics, photography, digital etc.) techniques, processes and ideas in a supportive studio environment. Whether your interest is to extend your personal art studio practice, to expand your repertoire of classroom friendly art projects, or to simply experience the satisfaction of exercising your creative muscles, this course is designed to accommodate individuals with diverse backgrounds and learning goals. All levels of art experience are welcome, from beginners to the more accomplished. What is required is an interest in being engaged in a focused, concentrated and meaningful way in making and talking about art, craft and art education.
